Completed	7
Rejected	2

Trends & Insights

Key trends observed during this reporting period:

- Resource requests have increased by 18% due to new hires
- Laptops are the most requested resource at 42% of all requests
- Average approval time has improved to 4.2 hours

- 85% of requests are fulfilled within the same week

Conclusion

Resource request process is performing well. Recommendations:

1. Maintain adequate stock levels for high-demand items
2. Consider implementing a self-service portal for common requests
3. Review approval workflows for faster processing
